| ATRIBUTI                   | VLERA                                                      |
|----------------------------|------------------------------------------------------------|
| <b>Cooling</b>             |                                                            |
| Cooler type                | Single-tower air cooler                                    |
| TDP                        | 220 W                                                      |
| Heat pipes                 | 4 x 6 mm nickel-plated copper                              |
| Fan size                   | 120 mm                                                     |
| Fan speed                  | 600 - 1500 RPM                                             |
| Fan connector              | 4-pin PWM                                                  |
| Airflow                    | max. 59.48 CFM                                             |
| Static pressure            | max. 1.81 mmH2O                                            |
| Noise level                | max. 32 dB(A)                                              |
| RGB                        | Fixed RGB (integrated)                                     |
| Compatible sockets (AMD)   | AM4, AM5                                                   |
| Compatible sockets (Intel) | LGA 1151, LGA 1200, LGA 1700, LGA 115x                     |
| <b>Design</b>              |                                                            |
| Color                      | Black                                                      |
| <b>Packaging content</b>   |                                                            |
| Package contents           | 1x cooler with fan, mounting kit for Intel and AMD, manual |
